

 **MOUSELESS.** 

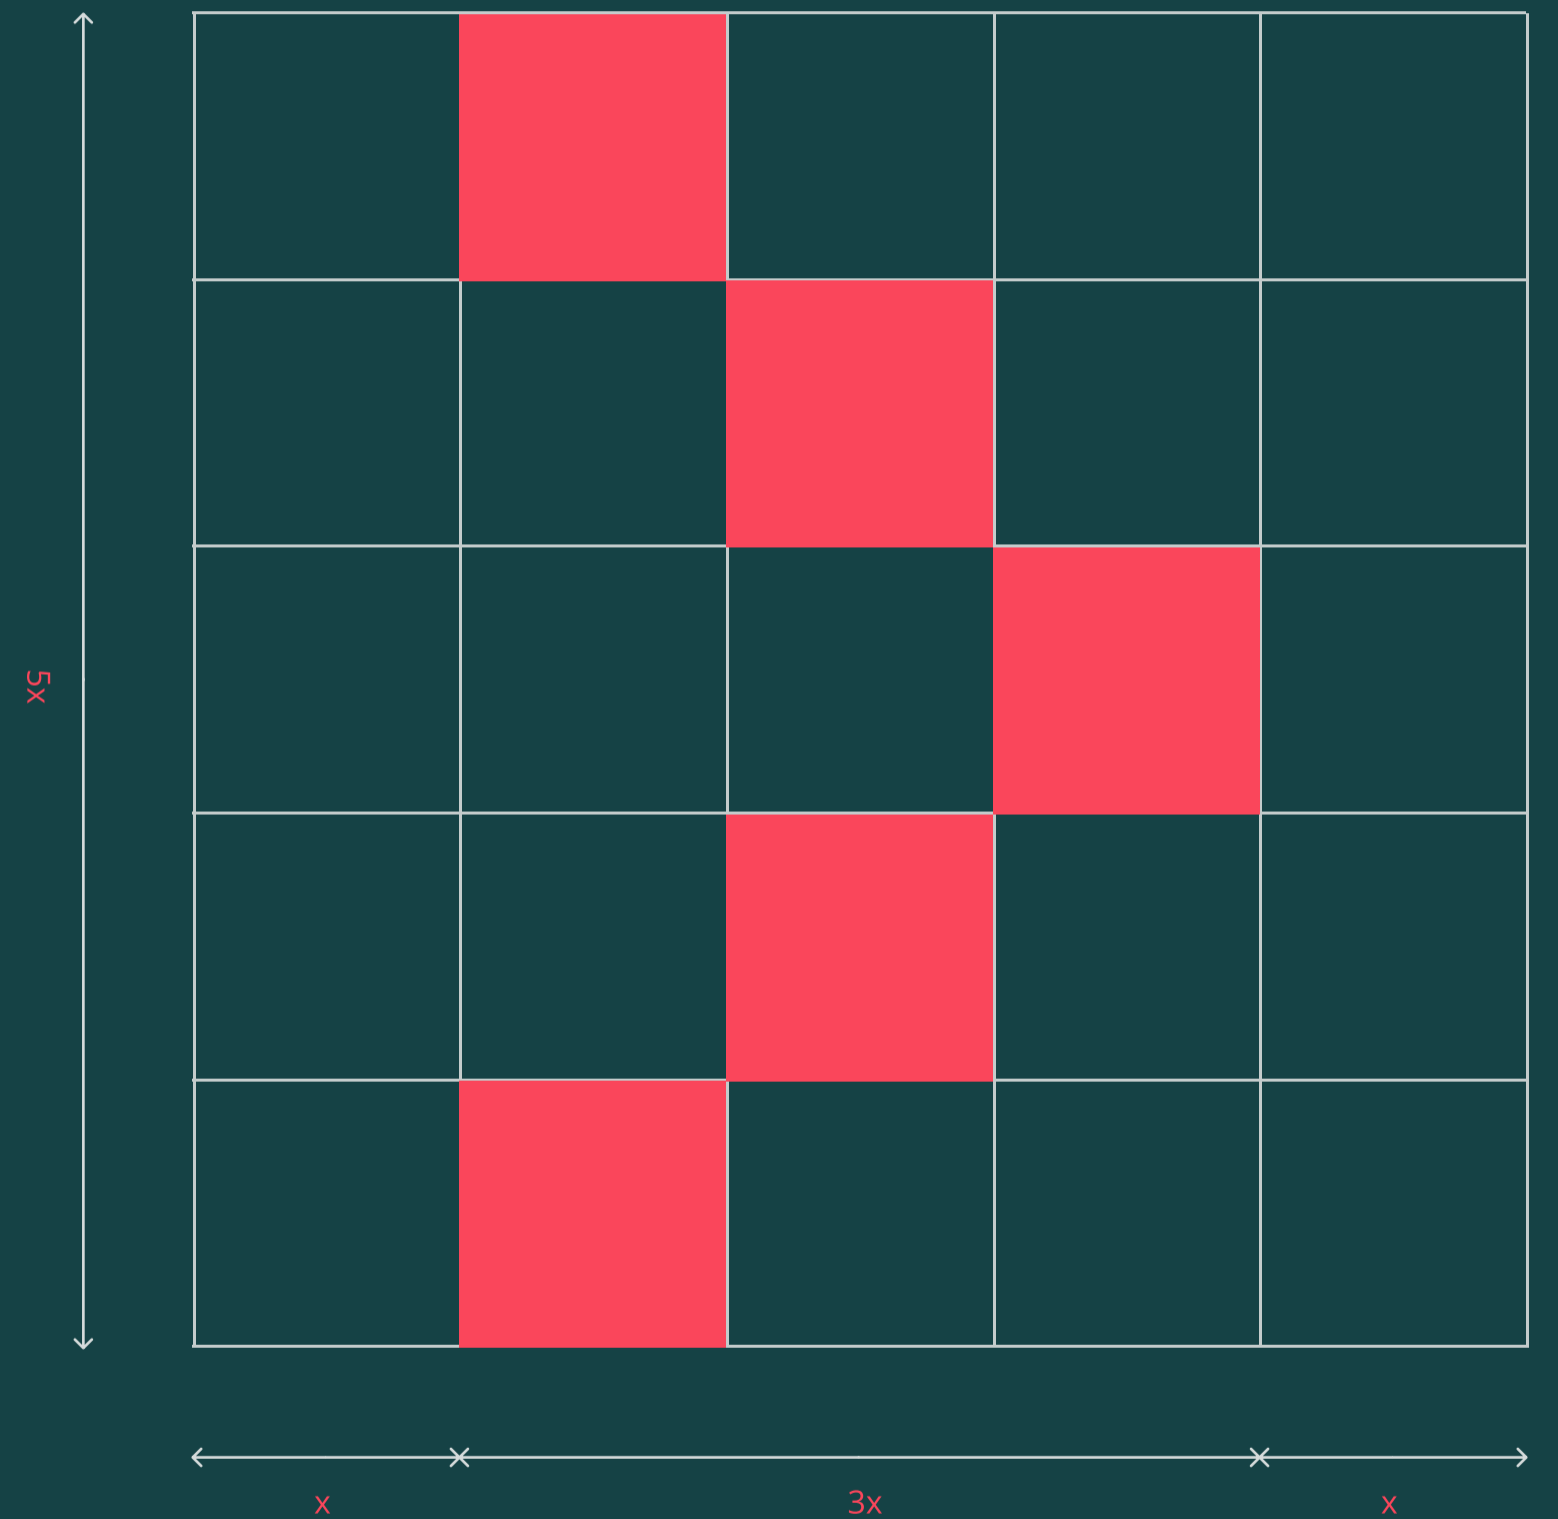

Brandkit

Mark Form

"Greater than" symbol emphasizes the use of terminal over GUI, inspired from command line / terminal icons.

We use a pixel art representation of the symbol, each square representing a pixel. This icon is in a 5x5 grid and is center-aligned. Guiding grid is to show there are two implied pixels on the left and right.

Full Form

Logo is constructed using mark, brand name and an underscore. Each symbol is in a 5x5 pixel grid with 1 pixel between them.

Wordmark uses a custom monospace font that gives the square feeling in each symbol representing a key on a keyboard.

Logo is derived from below typing motion;

```
> _  
>   
> _  
> mou_  
> mouse_  
> mouseless_  
> mouseless  
> mouseless_
```

> MOUSELESS_

> MOUSELESS_

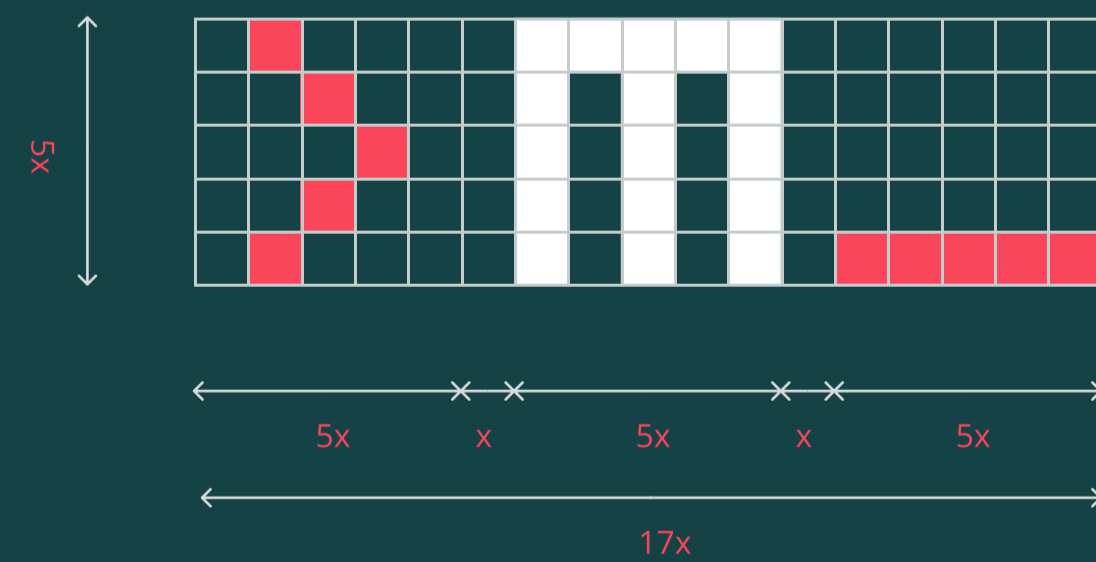

Short Form

Short logo is constructed using mark, brand initial and an underscore. This can be either treated as brand name is yet to be typed, or 'ouseless' was deleted and only m letter is left.

```
> _  
> m_  
> mouseless_  
> mouse_  
> m_
```

> MOUSELESS_

Mark Form – Colors

There is only one color that can be used in alternative backgrounds.

Full Form – Colors

There two color alternatives; primary, secondary. Use these alternatives in appropriate backgrounds.

Social Media – Mark

Profile picture containers may differ depending on the platform and device. Circle, round rectangle and square shapes are popular.

We use only logomark with an enough padding to have a clear look.

Social Media – Short

Alternatively you may use short logo.

Social Media – Terminal

To give a terminal feel, logo is placed at the top left of its container.

Use this alternative where you have enough space for logo to be recognized.

Watermark – Mark

Use watermark to protect and copyright photos and videos online.

- Use 15 - 30% transparency
- Put watermark on the edge of the photo
- Keep it as small as possible while being legible

Watermark – Short

Use watermark to protect and copyright photos and videos online.

- Use 15 - 30% transparency
- Put watermark on the edge of the photo
- Keep it as small as possible while being legible

Watermark – Full

Use watermark to protect and copyright photos and videos online.

- Use 15 - 30% transparency
- Put watermark on the edge of the photo
- Keep it as small as possible while being legible

Clearspace

Minimum space around logo should be two "pixels" that is 2/5 of its height.

> MOUSELESS_

Minimum Size

It is a pixel compliant logo, you can minimize it down to 5 pixels of height.

>MOUSELESS_

>MOUSELESS_

Typography

We use DM Sans for headers and Roboto Mono for content.

DM Sans

Palette

Prefer to use only these colors for content and background.

Additionally you may use white and black where necessary;

- white: #000000
- black: #FFFFFF

Theme – Primary

Themes use colors from palette to express brand identity visually in any medium.

Make sure you stick to the suggested colors only.
